

24 March 1969

MEMORANDUM FOR: Deputy Director for Intelligence

SUBJECT: Korean Border Incidents

STATINTL

[redacted] has called to my attention an item I had overlooked in "follow up action" from the Director's Defense Appropriations briefing of 14 March. At that time Representative Slack inquired about the border incidents during the first 2 1/2 months of 1969 as compared with the 661 which the Director had mentioned in 1968. The Director said he could provide a precise number for the record. [redacted] suggests that for purposes of comparison, we also include figures for 1966 and 1967.
